Palms, Etc.

...GROWN BY...

H. PLATH

“The Ferneries”

(FORMERLY UNION NURSERY)

510 WYOMING AVE.

Tel. Church 2415

P. O. Station “L”

SAN FRANCISCO, CAL.

To my Customers and Friends

In presenting my price list for 1905, I take advantage of the opportunity to thank my customers for past favors and hope for a continuance of same.

I should also like to call your attention to the fact that I have changed the name of my place to "**THE FERNERIES**," believing the title to be more appropriate as I am making a specialty of Fern growing.

Having again enlarged my establishment I am better able to fill all orders with which you may favor me.

TERMS OF BUSINESS: Orders from unknown correspondents must be accompanied by CASH, or satisfactory reference must be given. If plants are to be sent C. O. D., a partial remittance must be forwarded with order to guarantee acceptance. Remittances may be made by registered letter, P. O. Order, Express Money Order, or Check payable on any San Francisco or Los Angeles Bank.

Packing and Cases are furnished free of charge and goods are delivered free on board of cars or boats in San Francisco.

All plants are sent without pots unless otherwise ordered, when charges will be made for cases and packing at cost price.

When ordering, please state whether goods are to be sent by Mail, Express or Freight.

I warrant all plants sold by me to be true to name, and in healthy growing condition at time of shipment; but am not responsible for any damage or loss that may occur while in transit; nor do I assume any responsibility in regard to purchaser's success in cultivation of plants.

If any errors should occur please notify me at once, and I will make such correction as shall prove satisfactory.

I cordially invite you to visit my Greenhouses to inspect the stock. To reach Nursery, take Mission street electric car for Ocean View, or Southern Pacific trains for Ocean View.

FERNS

Latest introductions of special merit.

Nephrolepis Piersoni Elegantissima

This is without doubt the greatest introduction of late years and when grown in a light, airy position will prove satisfactory and of easy culture. This being a sport from the Pierson Fern it has the plumey peculiarity more distinctly developed than in the original form, the side pinnæ being again subdivided and standing at right angles to the mid-rib. The plant is also of more compact habit, growing only one half as tall, but the fronds being twice as wide.

Adiantum Cuneatum Roenbeckii

A great improvement on the old Cuneatum, growing erect with very long fronds. Fine for cutting. I can recommend it specially as a winter grower.
